OF DISTINCTION

2017 COLLECTION

www.carnabycaravans.com

WELCOME

Carnaby's mission for the last four decades has been to present a holiday home away from home.

This year sees the evolution of the Carnaby Comfort standard, raising levels of rest and relaxation by exceeding insulation values thanks to Ultra Warm and Ultra Warm Plus upgrades. This means that the Structural Thermal Rating of each model has increased* and is optimised to create the perfect environment for comfortable living.

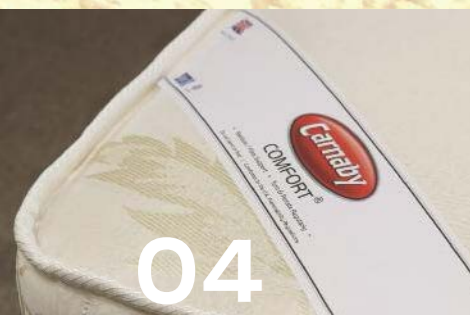

Whilst retaining all of the features that set our industry leading Carnaby Comfort standard and made our 2016 collection so popular, this year we've really focused on the details of that standard.

We've added two new models to our range in the Stamford Lodge and the Hainsworth, which build on the stunning success of last year's collection. Whatever you are looking for, Carnaby has the perfect solution to fit your lifestyle and budget.

* Increase per model is compared to 2016 NCC Structural Thermal Ratings

ATTENTION TO EVERY DETAIL

It's the little things that make all the difference, so we've approached each tiny feature and shaped it with your satisfaction in mind.

COMFORT

"At Carnaby, we don't believe you should leave your domestic comfort at home. That's why we have provided domestic sized and quality seating in all our models. Also, why should you have a poor night's sleep when you are on holiday? Carnaby Comfort mattresses, designed and manufactured in the UK exclusively for us, are standard right across the range. Visit your local stockist to take the Carnaby Comfort test for yourself."

Nigel Smailes, CEO

SUPERIOR SEATING AS STANDARD

To enable absolute relaxation when you need it most, all of our models include full-size, domestic quality seating.

IN CHARGE OF COMFORT

Wherever you sit down or lay your head, you'll find an integrated USB charging station within easy reach, keeping you connected at all times.

DREAMING OF COMFORT

Our deluxe mattresses are specially designed to promote sound, cozy and rejuvenating sleep.

KEEPING YOUR GUESTS IN COMFORT

Fold out beds could never be described as comfortable and worse still they seriously compromise the comfort of your sofa in everyday use. That's why we are offering the option of an Aerobed, giving your guests a great night's sleep and retaining our high Carnaby Comfort standard for day-to-day living.

AMBIENT COMFORT

Comfort comes in many forms which is why we've invested in improving the insulation properties of our holiday homes.

Carnaby's research and development team have increased the insulation values of the walls, floors, ceilings and windows - further improving comfort levels within units fitted with our Ultra Warm and new Ultra Warm Plus options.

The NCC Structural Thermal Rating Scheme is designed to give purchasers of caravan holiday homes built to EN 1647 the opportunity to compare the relative thermal efficiency between all manufacturers and their models on a level playing field.
