Groewood Lux * Groewood * Sandhurst * Sandhurst CL * Torino Super * Coaster

We create luxury leisure homes for you to enjoy all year round

Our 2017 leisure home range has been designed with you in mind. This year we have 19 models for you to choose from across 6 ranges - all of which are packed with innovative design features with their own unique and beautiful style.

With Victory Leisure Homes you get a fantastic selection and value for money from a range that is hard to beat. All of our leisure home models come complete with uPVC double glazing and central heating, and for 2017 all models (except the Coaster) now have a fully galvanised chassis with encapsulated insulation as standard.

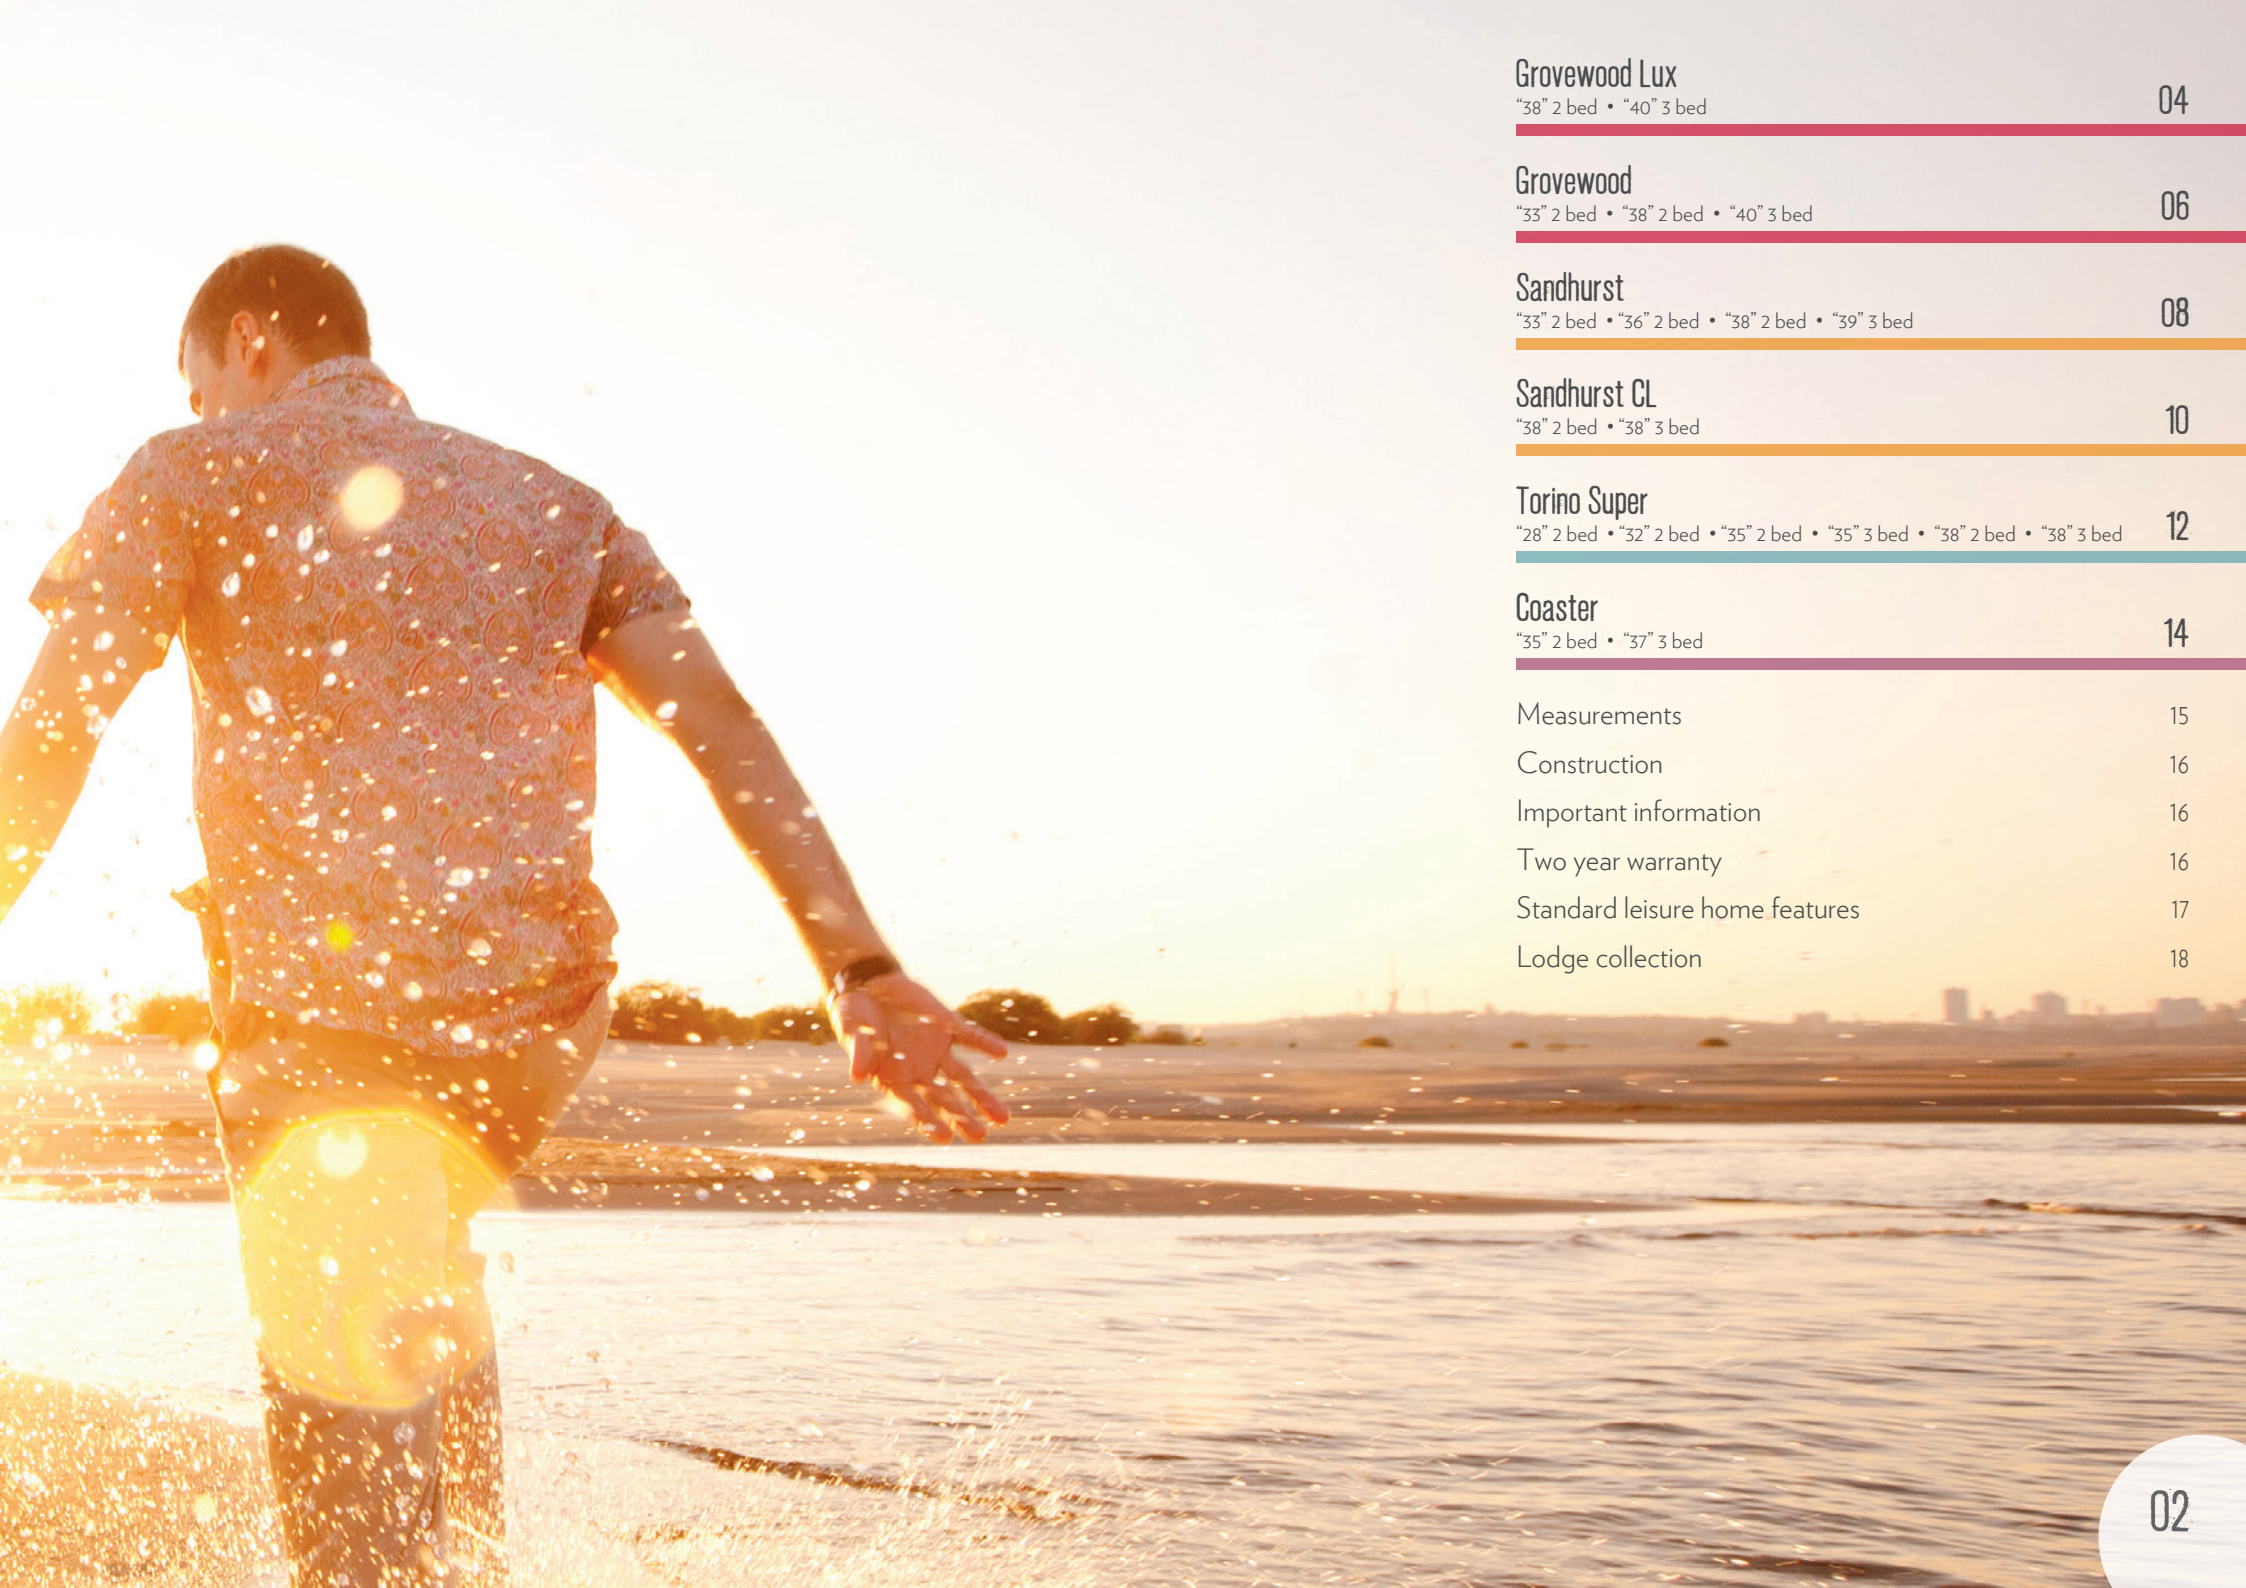

Over the past year our design and development team have been working tirelessly in an effort to launch a range of leisure homes that we can be proud of, we hope that you will be equally proud to own one.

For more information please visit our website at www.victoryleisurehomes.co.uk

**With Victory Leisure Homes we know you'll
find what you're looking for.**

Grovewood

Stylish and innovative leisure home living

The Grovewood is an exclusive leisure home that benefits from innovative and luxurious features throughout. It is set apart from other leisure homes by a number of unique design features like the central column focal point that takes centre stage in-between the kitchen and living area, or the modern sofas that create a true home-from-home feel. The Grovewood really does set the standard for contemporary leisure home life.

Key Features

- Double glazing and central heating
- Galvanised chassis with encapsulated insulation
- Dark wood décor with matt chrome sockets
- Integrated fridge/freezer and microwave
- USB charging points

Sandhurst CL

Spacious, stylish, quality
open plan living

Brand new for 2017, the Sandhurst CL is designed to provide all the space and features a modern family requires. The central open plan living area provides a perfect family gathering place. There are shower rooms at each side and the 2 bedroom option has an impressively spacious layout with two full size 3ft single beds. Central lounge layouts are set to be the new trend in leisure home design and we know this is going to be a popular addition to the range.

Key Features

- Double glazing and central heating
- Galvanised chassis with encapsulated insulation
- Energy efficient glass
- Integrated fridge/freezer & microwave
- Two shower rooms
- USB charging points

- External light

Popular Optional Extras

- Fusion fully galvanised chassis
- Integrated microwave
- Environmental green external cladding

Bringing style, quality, and great value together

The Coaster proves that value for money shouldn't have to mean compromising on style, quality or comfort. The generous lounge features comfy, wrap-around seating and welcoming décor with co-ordinated fabrics. The fully equipped kitchen has a fitted cooker and hood, and integrated fridge/freezer. Add to that ample storage space not often found in a modern holiday home, and the Coaster really is hard to beat.

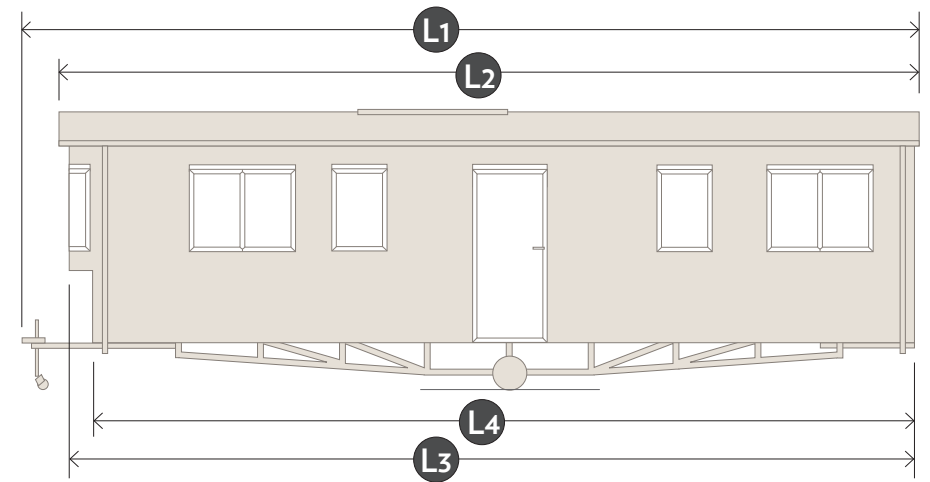

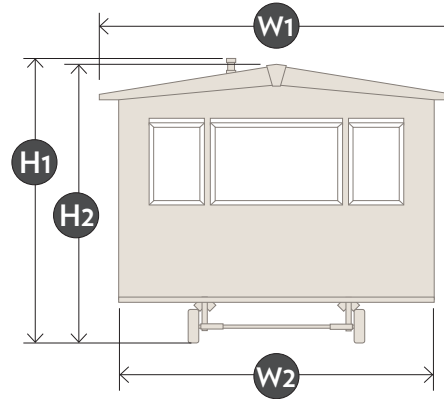

Key Features

- Double glazing
- uPVC coloured windows
- Central heating
- Integrated fridge/freezer
- Ample storage space
- Externally vented cooker hood with light

Measurements

Before purchasing your Victory leisure home, we are sure you will want to know the exact measurements. The models are listed here in the order they appear in the brochure along with their page number to make them easy to find.

Imperial (feet & inches)

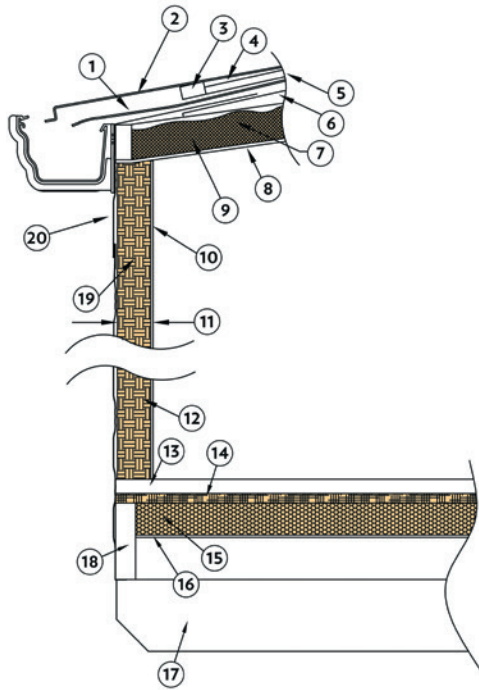

Metric (meters)

		L1	L2	L3	L4	W1	W2	H1/H2	L1	L2	L3	L4	W1	W2	H1/H2

All dimensions are shown in metres (m) and imperial (feet / inches). All measurements are approximate and rounded to the next mm or inch. They could vary slightly due to the nature of the materials used, although the variance should not be significant. Please note that the floorplans throughout the brochure are indicative of the general layout only. They are not totally to scale and do not represent fully the shape and style of furniture and fittings or the detail of content.

Important Information

In order for any Victory leisure home to be used, it needs to be correctly sited, have steps or other means of entry and be connected to services (an appropriate propane gas supply, mains electricity to suit the required wattage off-take, mains water at a pressure to suit the appliances and a waste water/sewage outlet).

Most models can be powered by mains electricity only, although some layout changes will be necessary. Victory recommends that you do not use the product for residential occupancy. All Victory leisure homes are built to comply with many European & British Standards and all relevant Codes of Practice required by the National Caravan Council Certification Scheme and those endorsed by The British Holiday and Home Parks Association. These include the recommendation that caravan holiday homes should only be used for temporary holiday occupancy.

The sizes given are reasonably accurate shell measurements, but if your chosen pitch has size limitations or obstructions, you should consult with your Park Operator or Dealer to establish specific sizes.

Illustrations, photographs, descriptions, information and statements contained in any Victory Leisure Homes Limited literature are intended only as a general guide. They are relevant to the product at the time of writing and production. Victory Leisure Homes Ltd. reserves the right to change any materials, fittings, sizes etc. at any time and without prior notice as supply, product development

or legislation conditions demand. The matching and lining-up of patterns on wall-boards and fabrics is not always possible because of the caravan design and methods of construction.

Some of the items photographed (some refrigerators, fridge/freezers, microwaves, televisions, media players, some soft furnishings for beds and general props) are for illustration purposes only. Please refer to your Park or Dealer if you need clarification.

All Victory leisure homes are built to meet the requirements of EN1647 for snow loading categories A & B provided that the caravan is sited as recommended in the relevant Code of Practice for siting.

Please note: The description given for some features is not always applicable to every model within any range as there may be legal, technical or layout requirements that may create the need to alter or leave out the stated feature. Also, any item pictured may be different in size or style in other models within the range. Please be aware that supplied appliances and fittings may vary from those described as manufacturers may change, update or make obsolete and introduce new models. Such changes are beyond our control and we draw your attention to the fact that we reserve the right to change as these supply implications take effect. If any feature is critical to your purchasing decision, it would be wise to check beforehand exactly what is supplied with your chosen model.

Two Year Warranty

The combination of solid construction and evolutionary design integrated with comfort and function, demonstrates the depth of knowledge and long experience that the management and staff of Victory Leisure Homes have gained over many years working within the leisure home industry.

This underpinning gives us the confidence to offer a two year warranty to all purchasers within the UK subject to certain terms and conditions. The warranty can be viewed and downloaded on the website www.victoryleisurehomes.co.uk or by sending a stamped addressed envelope to the address on the back page. For purchasers outside of the UK, please refer to your supplier for warranty details. The warranty available is additional to and does not affect your statutory rights under consumer legislation.

Standard Features in our Leisure Homes

In 2017 Victory Leisure Homes have more features in their standard specification than ever before, making sure that you get the maximum comfort and value from your leisure home.

Central Heating, Double Glazing & Insulation

Sit back, relax and know that you will always be warm in your Victory leisure home because all models come with central heating, along with double glazing and insulation to make sure you stay warm whilst also conserving energy usage. All windows (except on the Coaster) are also made from energy efficient glass.

Galvanised Chassis (most models)

A galvanised chassis ensures the longer term structural and cosmetic integrity of your leisure home, and is a necessity for leisure homes by the sea to prevent corrosion. With that in mind, all of our models (except the Coaster) now come with this feature as standard with encapsulated insulation - exclusive to Victory Leisure Homes.

USB Ports & Shaver Sockets (most models)

We believe that your home from home should have as many modern conveniences as possible, so as well as traditional shaver sockets, we now fit all our leisure homes (except the Coaster) with sockets that have USB charging points in the living room and bedrooms so you can charge all your devices easily and without using up valuable plug sockets.

Lodge Collection

Welcome to a more luxurious way to live

At Victory our philosophy is based on a real desire to provide elegant, best-quality lodge homes at affordable prices, backed up with a high standard of service.

Our 2017 collection consists of 16 lodges with a choice of 13ft, 16ft or 20ft widths - presenting new versatile features and colour combinations. Each model has a different design inspiration introducing new ideas, not only for style, but for practical and comfortable living. Our approach is discreet yet elegant with natural tones and modern colours designed to work together. Add to this an extensive list of appliances and features and you will see why all of our lodges are truly luxurious.
