HOW WE CREATE AMAZING HOMES

From our concept development team – to our aftersales customer care engineers – you can rest assured you're in good hands with Victory Leisure Homes.

DESIGN

From technical designers dedicated to creating clever new layouts and space saving designs, to upholstery and fabric sourcing that makes your leisure home modern and comfortable; our team has every aspect covered down to the finest detail.

BUILD

All of our leisure homes are hand built by skilled craftspeople in our purpose built, energy efficient factory, accredited to ISO45001 Health & Safety Requirements. The production process commences with the steel chassis entering the production line, where the timber support joists and floor are assembled, and then walls and roof are erected to create the shell. The electrical wiring and various insulation materials are then built in, with the exterior cladding fitted later. At the same time, all the internal fixtures and fittings, integrated appliances and plumbing are fitted, and then at the final stages the soft furnishings are added. After numerous quality and safety checks, the leisure home leaves the factory ready for installation on site.

MARKET

Our leisure homes can be purchased through a network of distributors, or directly from holiday parks, where they are used in holiday fleets or sold directly to their new owners. Check our website today to find your local park or distributor.

MAINTAIN

Just like houses, leisure homes need regular maintenance. The owner's handbook, along with the park, will provide a guide to this. In the unlikely event that something goes wrong, our after-sales care team are on hand to help resolve any issues quickly and efficiently under our two-year warranty.

PART OF J. R. RIX & SONS

Victory Leisure Homes is part of J. R. Rix & Sons, a family owned company established in Yorkshire in 1873, regularly appearing in the Times Top Track 250 awards. The group has a diverse portfolio of businesses ranging from shipping and warehousing through to fuel distribution, car retailing, manufacturing and property development.

LIFESTYLE PACK

AVAILABLE

CREATE YOUR OWN

Choose from a wide range of colours and finishes of cladding and uPVC frames, add some outlook doors or maybe even an integrated dishwasher - the choice is yours. See page 23 for more details.

ENERGY EFFICIENCY

Our models all come with extra insulation as standard, but by adding our lifestyle pack you get all the benefits of double glazing with LowE glass and central heating with thermostat.

MODERN CONVENIENCES

Every model has USB ports as standard, plus with the lifestyle pack you also get integrated fridge/freezer and microwave for a flawless kitchen finish.

TAKE A TOUR

Take a virtual tour around all our models on our website at www.victoryleisurehomes.co.uk

SOCOZEEE MATTRESSES

Get a great night's sleep with the premium support, comfort and luxury of our exclusive branded mattress.

PREMIUM BUILD QUALITY

Built to exceed industry standards with energy efficient, hardwearing design that saves you money, reduces your impact on the environment and keeps you warm and safe for many years to come.

See page 24 for construction details.

ROBUST CHASSIS

Our chassis has its own unique robust design, and has extra insulation for energy efficiency as standard on all models in the range.

See page 24 for construction details.

TWO YEAR

WARRANTY

NOTES

1 - Upgrade from the conventional painted chassis (see note 2 below)
2 - Recommended in estuary/coastal areas with high salinity
3 - Being available for the range does not guarantee availability on models where layout does not allow
4 - Rimini has 2 armchairs as standard. Echo has 1 armchair as standard (except Echo 28/2 as layout does not allow)
5 - Not in conjunction with the SoCozeeee Mattress

PEACE OF MIND

Our team of experienced, knowledgeable leisure industry professionals pride themselves on exceeding manufacturing standards to provide you with a leisure home that will keep you safe and warm for many years to come.

We offer a two year warranty to all purchasers in the UK (subject to certain terms and conditions).

The full warranty is available on our website, or you can ask for a printed copy by sending a stamped, addressed envelope to the address on the back page.

For purchasers outside of the UK, please refer to your supplier for warranty details.

The warranty available is additional to and does not affect your statutory rights under consumer legislation.

Before purchasing your Victory leisure home, we are sure you will want to know the exact measurements. The models are listed here in the order they appear in the brochure.

All dimensions are shown in metres (m) and imperial (feet / inches). All measurements are approximate and rounded to the nearest mm or inch. They could vary slightly due to the nature of the materials used, although the variance should not be significant. Please note that the floorplans throughout the brochure are indicative of the general layout only. They are not to scale and do not represent fully the shape and style of furniture and fittings or the detail of content.

IMPORTANT INFORMATION

THINGS TO KNOW WHEN BUYING A LEISURE HOME

In order for any Victory leisure home to be used, it needs to be correctly sited, have steps or other means of entry and be connected to services (an appropriate propane gas supply, mains electricity to suit the required wattage off-take, mains water at a pressure to suit the appliances and a waste water/sewage outlet).

Most models can be powered by mains electricity only, although some layout changes will be necessary. Victory recommends that you do not use the product for residential occupancy. All Victory leisure homes are built to comply with many European and British Standards and all relevant codes of practice required by the National Caravan Council Certification Scheme and those endorsed by The British Holiday and Home Parks Association. These include the recommendation that caravan holiday homes should only be used for temporary holiday occupancy.

The sizes given are reasonably accurate shell measurements, but if your chosen pitch has size limitations or obstructions, you should consult with your park operator or dealer to establish specific sizes.

Illustrations, photographs, descriptions, information and statements contained in any Victory Leisure Homes Ltd literature are intended only as a general guide. They are relevant to the product at the time of writing and production. Victory Leisure Homes Ltd reserves the right to change any materials, fittings, sizes etc. at any time and without prior notice as supply, product development or legislation conditions demand. The matching and lining-up of patterns on wall-boards and fabrics is not always possible because of the caravan design and methods of construction.

Some of the items photographed (some refrigerators, fridge/freezers, microwaves, televisions, media players, some soft furnishings for beds and general props) are for illustration purposes only. Please refer to your park or dealer if you need clarification.

All Victory leisure homes are built to meet the requirements of EN1647 for snow loading categories A & B provided that the caravan is sited as recommended in the relevant code of practice for siting.

Please note: the description given for some features is not always applicable to every model within any range as there may be legal, technical or layout requirements that may create the need to alter or leave out the stated feature. Also, any item pictured may be different in size or style in other models within the range. Please be aware that supplied appliances and fittings may vary from those described as manufacturers may change, update or make obsolete and introduce new models. Such changes are beyond our control and we draw your attention to the fact that we reserve the right to change as these supply implications take effect. If any feature is critical to your purchasing decision, it would be wise to check beforehand exactly what is supplied with your chosen model.
